PROFESSIONAL SUMMARY

QA Automation Engineer with 5+ years of experience building reliable software through test automation, API and performance testing, and hands-on frontend engineering on enterprise React/Next.js applications. I combine deep regression automation with production feature ownership — from 350+ Playwright tests to shipping complex favorites and reports experiences — while improving testability, accessibility, and team velocity across release cycles.

5+ years in QA & software engineering 350+ E2E tests in active automation suites

1,200+ automated scenarios delivered 200+ API & integration test cases

PROFESSIONAL EXPERIENCE

QA Automation Engineer

5+ years

TransPerfect

New York, NY

- Designed and maintained 350+ automated end-to-end tests using Playwright with Page Object Model architecture
- Built reusable test utilities, failure diagnostics (screenshots/video), and integrated automation into CI/CD pipelines
- Owned favorites feature end-to-end on enterprise React client — hooks, table components, URL/searchId sync, and edge-case fixes
- Added 25+ commits of data-testid instrumentation across Super Admin, navigation, tables, and forms for reliable e2e coverage
- Created k6 performance scenarios for authentication endpoints; validated AG Grid filtering, editing, and import/export workflows
- Improved accessibility with aria-current, focus fixes, IconButton semantics, and npm dependency security hygiene

TECHNICAL SKILLS

Test Automation

Playwright, Selenium WebDriver, JavaScript, TypeScript, Node.js, Page Object Model, Faker

Performance Testing

k6, load testing, performance analysis

Quality Engineering

data-testid instrumentation, Playwright e2e enablement, accessibility (a11y), regression strategy, test design

API Testing

REST API, Postman, Newman, API validation, authentication flows, backend integration testing

Frontend Technologies

React, Next.js App Router, TypeScript, CSS Modules, Material UI, React Hooks, AG Grid

Tools & Workflow

Git / GitHub, GitHub Desktop, Jira, CI/CD pipelines, VS Code, Vitest ecosystem

FEATURED PROJECTS

Enterprise Test Automation Framework

Playwright Automation Suite

- 350+ automated E2E tests with POM components, CI/CD integration, and regression coverage across critical user flows

Favorites & Reports Experience

Enterprise React Client — end-to-end feature ownership

- Shipped production features across reports, tables, and forms; built useSetSearchFavorite hook and RowActions extraction

Testability & QA Enablement

data-testid instrumentation across the product

- Stable selectors for Playwright coverage; improved a11y and addressed npm vulnerabilities

EDUCATION

Advanced Education Certification, Software QA/Testing

Chroma Tech Academy

November 2021 – May 2023 · Certificate

Master's Degree, Business Administration and Management, General

Institute for Advanced Training and Retraining of Executives

September 2012 – June 2017

Master's / Advanced Education

Belarusian State University · Republic of Belarus

1994 – 1998

PROFESSIONAL DEVELOPMENT

- Advanced TypeScript concepts
- Advanced React patterns
- Modern software testing strategies
- AI-powered software development workflows
- Quality engineering practices

ADDITIONAL STRENGTHS

- Analytical problem solving
- Strong attention to software quality
- Cross-functional communication
- Continuous learning mindset
- Ability to bridge QA, automation, and software development
